**INDEX TO OBITUARY NOTICES AND DEATH ARTICLES  
IN THE ALBUQUERQUE JOURNAL  
FOR THE YEARS 1963, 1964 AND 1965**

***INTRODUCTION***

The idea for this index first came about as a result of Ms. Drew's work at the Denver Public Library Genealogy Division. That library had certain indexes and materials which are invaluable to genealogical researchers. Our new library had a fair amount to offer researchers; however, there was little for those who were searching their local "roots". With the publication of these indexes that is now beginning to change.

On her return to the Albuquerque Public Library Special Collections Branch, Ms. Drew considered what information would be most useful to those people doing local research. One of the best sources of genealogical information is, of course, the local newspaper, but there is rarely an index to those records. Therefore, she decided to create one. She directed the compilation of the vital statistics for 1925 to 1936, which is available in the library, but no extra copies were made for distribution at this time. Under her direction, the Albuquerque Genealogy Club undertook the project of further development of these indexes.

With better record keeping and reporting of county and state governmental bodies, the index of vital statistics is not nearly so urgent as in prior years. Therefore, beginning with the year 1960 the Genealogy Club of Albuquerque began preparing notices of deaths, as recorded in the obituary column of the newspaper, as well as news articles that covered a death where next of kin and other relatives are noted. This will be a great source of obtaining names of other family members, since that information is not contained in the official death certificates filed with the state.

Should you desire to see the news article or obituary notice, it will be found on microfilm at the Albuquerque Main Public Library, the Wyoming Branch of the Albuquerque Public Library or the Albuquerque Journal Offices. You may also request copies from the Albuquerque Genealogy Club.
